

AFT Deckblaster Recycling Plate

- ✓ Core Inside - Advanced Spray Bar with 16 jets and different angles create stronger jets and higher blasting efficiency.
- ✓ Core Inside - AFT patented Magnetic Break UHP Rotary Swivel keep the Spray Bar working at the perfect rotational speed. Innovative and patented HP Sealing kit avoid the swivel-shaft from wearing.
- ✓ Lasting longlife of the HP Sealing kit.
- ✓ Multi -bearings-design guarantee stable rotation of Spray Bar and prevent axle bouncing.
- ✓ Shaft-sealing design improves the lifespan of the Seal .
- ✓ A vacuum valve and dual evacuation outlet on the cleaning plate to ensure high efficiency of the entire vacuum recycling.
- ✓ Multi-layer nylon brush effectively prevent the leakage of sewage and impurities.

Max Pressure	3200 Bar
Max Flowrate	50 lpm
Weight	50 KG
Blasting circle	304mm
Jet (nozzles number)	16
Jet angle	10 * 0° , 6 * 7°
Vacuum Inlet	2*DN50 ↔ 1* DN60
Specification	1000*440*650 - 850 mm
