

## AFT Poseidon II 40k psi/2800 bar 4-port

The new generation Poseidon 40k psi/2800 bar 4-port is a speed controlled rotary shotgun tool with four jets to effectively remove thin, hard deposits. Built with a breakthrough cartridge design and titanium alloy.

### *Quality that blasts away industry norms.*

- Titanium alloy
- Breakthrough cartridge design with the least parts
- Simplest maintenance
- Lightweight & low-vibration operation
- High Performance Sealing
- Angled jets allow effective cleaning
- Great energy-efficiency for pumps

Max Flowrate	28 lpm
Nozzle insert	Type 53 (7/16-20 UNF)
Inlet Connection	9/16 UNF LH F
Dimension	58 x 222mm
Weight	1.2 KG / 1.4 KG

$\frac{A}{5:1}$
